AlternaScapes team was terrific. They arrived on time, got the job done in difficult conditions, were sensitive to the neighbors and the installation is beautiful. They turned my uneven backyard into a near perfect soccer field for the kids. We have used it for a week, and it's been well worth the investment. The kids can play in the rain without getting muddy. We can have picnics without blankets, and there are no worrisome pesticides where the kids play anymore. And most importantly: There is no grass to water or cut. Our backyard has become the part of our property where we spend the most time.

Thanks for the extremely prompt service to make this all happen in just 3 days. You and your team were great. After they finished up at 3pm, our extended family arrived and the kids were having so much fun on the new lawn that we let them play until late in the evening. We no longer worry about the wear and tear it takes. Slip & slides, bounce houses, rope swings, picnic tables, even bikes... the kids get to enjoy it all, and my wife and I get to look out the window to a beautiful yard. Thanks again.

**Erik Carlson

Having you install FieldTurf was the best decision we have made for our landscaping.  
It's just perfect!

**Tommy and Conchita Root  
Tampa, Florida**

It still looks just like natural grass and the appearance has not changed at all. What a great product!!!!

## RESIDENTIAL CLIENT REFERENCES

---

We are so excited about the new grass. Even Wallie (the dog) likes it and she normally doesn't like to lay down outside and she did tonight - in the new grass!!!

I also wanted to thank all of you who worked on our project. You made the planning stages seem so easy and the three men who worked at the house were wonderful. Eric offered to Neil that if you need a yard to show a potential customer in St. Pete what the turf looks like, you can show our yard. We don't mind at all."

**Eric and Ellen Kaltenbacher**  
**St Petersburg, Florida**

A short letter to let you know how pleased we are with our new Field Turf that you installed on our side yard.

As you know, I own three retired racing greyhounds and they have been unable to tear up the Field Turf or dig holes in anyway. My dogs have never been so clean now and they appreciate that too since I don't have to give them bathes all the time. It's also a real pleasure when it rains, no more muddy holes for them to lay in and no more mud coming into my house. I can not tell you how much I love that! As you said clean up after the dogs is very easy in fact I believe it's even easier than before and there isn't any leftover odors, which we all appreciate. The Field Turf is very soft and the dogs really enjoy taking their naps on it and I haven't worried about them getting bitten by ants and I also don't worry about one of my dogs having allergies anymore as she was allergic to grass and dirt. We, too, enjoy sitting on the Field Turf with them as before no one would want to sit on the grass in fear of ant bites or just plain getting dirty.

Neighbors, relatives and friends have given us so many compliments on the Field Turf and I told them that Maintaining it is so easy, there's really hardly any work to it at all. I just don't see myself ever living without Field Turf again, especially when you own a dog or more. I wish I had Field Turf years ago when my daughter was young, it would have been so nice for her to play on.

I also would like to say you and your crew that installed our Field Turf were informative, well representative of your company and very friendly. It was a pleasure doing business with you. Thank you again for your kindness and promptness of service.

I wanted to take a moment to let you know how happy we have been with the Fieldturf that your company installed in our side yard for our two large dogs. It has proven to be one of the best decisions we have ever made.

Prior to getting the turf, I was just short of either getting rid of the dogs or leaving myself! The dogs were constantly tracking dirt in the house. I could not keep the dogs or the house clean. Six months prior we had installed sod with the thought that they would have a nice play yard, however, that quickly proved to be the wrong choice. Their mere running around dug up the sod and shortly thereafter my side yard looked like one big dirt pit! Unaware of any other options, I surfed the Internet and came upon your website. After doing a bit of research and checking references, we went ahead and had the turf installed.

All I can say is, every day when I'm out there I thank God for you guys! The side yard looks better than any of the other grassy areas around our house! It is very easy to remove the dog droppings, and it is so nice to see the dogs running around and getting exercise and the turf does not budge! It was a large investment but worth every penny.

I cannot say enough good things about the turf and tell everyone who has a dog about it.  
With much thanks,

**Laura Mercandetti**  
Sarasota, Florida

I would like to thank everyone at AlternaScapes for your wonderful service... from the sales person... to the installers... to your customer service.

**Janet Smith**  
Tampa, Florida
